COURSE DESCRIPTION:

Join this class to discover how to cultivate you and your student's right brain creativity and curiosity. Explore basic drawing skills and techniques while tapping into the Right Side of the Brain. You'll learn the fundamentals of creative right brain basic drawing, Gestalt, light and shadow, space, edges, and these relationships to each other while building creative drawing confidence. Bring these guided right-brain drawing skilled lessons into your practice or any classroom curriculum to boost any student's critical-thinking, problem-solving skills and experience the delight of creative right-brain drawing. This course is designed for every educator PP-12. Throughout this fun and creative course, you'll explore:

- Short video tutorials by a pioneer in right-brain educator that will give you the technical skills required to create your own creative right brain drawing.
- Guided video and workbook lessons that take you through guided drawing activities.
- Information to develop right brain drawing skills in your curriculum to produce exciting outcomes for you and your students
- Basic principles of Right-Brain Drawing in order to gain in-depth, practical knowledge of them.

We will use Betty Edward's classic text Drawing on the right side of the Brain and related workbook, Participants, use their own art supplies. Download the recommended supply list (See materials). Books and video will cost about \$70.

LEARNING OUTCOMES: Upon completion of this course, participants will have:

- An understanding of basic principles and basic right-brain drawing skills
- The application and understanding of contour drawing or edges
- The ability to recognize and draw negative spaces or space
- The ability to synthesize perspective and proportion or relationships
- Knowledge and skills to apply value or light and dark shading
- The ability to explore the Gestalt as the whole

COURSE REQUIREMENTS:

Completion of all specified assignments is required for issuance of hours or credit. The Heritage Institute does not award partial credit.

HOURS EARNED:

Completing the basic assignments (Section A. Information Acquisition) for this course automatically earns participants their choice of CEUs (Continuing Education Units), Washington State Clock Hours, Oregon PDUs, or Pennsylvania ACT 48 Hours. The Heritage Institute offers CEUs and is an approved provider of Washington State Clock Hours, Oregon PDUs, and Pennsylvania ACT 48 Hours.

UNIVERSITY QUARTER CREDIT INFORMATION

REQUIREMENTS FOR UNIVERSITY QUARTER CREDIT

Continuing Education Quarter credits are awarded by Antioch University Seattle (AUS). AUS requires 75% or better for credit at the 400 level and 85% or better to issue credit at the 500 level. These criteria refer both to the amount and quality of work submitted.

1. Completion of Information Acquisition assignments 30%

- Include your Website URL address in the heading of this paper
- Upload this paper to your Google Drive
- Post to your Homepage below your initial and final self portraits
- Publish

Attach your Google Website URL to the Assignment Response Prompt.

ADDITIONAL ASSIGNMENTS REQUIRED FOR UNIVERSITY QUARTER CREDIT

B. LEARNING APPLICATION

In this section, you will apply your learning to your professional situation. This course assumes that most participants are classroom teachers who have access to students. If you do not have a classroom available to you, please contact the instructor for course modifications. Assignments done in a course forum will show responses from all educators who have or are taking the course independently. ?Feel free to read and respond to others' comments. Group participants can only view and respond to their group members in the Forum.

Assignment #15: Developing Right Brain Lessons

Using any teacher lesson plan format of your choosing.

- Develop three to five (3-5) lesson plans on the process of Drawing on the Right Side of the Brain.
- Develop these lessons based on your setting and developmentally appropriate skill set for your classroom or setting. Approach this assignment for your particular grade level, setting, or studio practice. These lessons may include activities you have developed as a result of this course.

AND/OR

- Create a 3-5 lesson unit using DRSB techniques for a disciplined common core study (science, math, language arts....) that is supported and enhanced with DRSB techniques. Post a three to five (3-5) page lesson/unit word document, a mind map, a Prezi, a Haiku Deck, Adobe Spark, Google Site, Google Slides or PowerPoint presentation of your unit plan.

AND/OR

- Develop a solid student base online artist portfolio for your students. Include examples of any student drawings from this course and include any other Drawing on the Right Side of the Brain you have created within a studio setting to use as examples. Attach formatted portfolio web site URL to access for review.

PLUS

On your Google Website create a new page named "**Right Brain Lessons**".

- Change the background image for this page
- Upload your chosen assignment to your Google Drive
